

Kiarash joined Bousfields in March 2017 as an urban designer. Prior to joining the firm, he worked on numerous commercial, residential and urban design projects at several architectural firms. He has more than 15 years of progressive business development, project leadership and management experience in the Architectural and Urban Design Consulting. He completed a Bachelor and Masters in Architecture (Azad university, 1997, Iran) and a Masters in Urban Design (University of Toronto, 2016).

Kiarash’s responsibilities at Bousfields include conducting built form impact analyses, including shadow impact studies; performing architectural control; and assisting in the preparation of urban design rationales related to proposed developments.

Kiarash is currently a member of Ontario Association of Architects.
